Solution:

There is a hide function in many parts. Just like below.

Numeric Input/Display [X]

General | Graphics | **Security** | Advanced | Animation

☐ Interlock

Address [] [Edit]

☐ Hide "LOCK" icon ☐ Invert signal

☐ Confirmation Waiting [] Sec

[No trigger] [v]

[No trigger] [v]

☐ Enable Password

☐ User restriction

☒ Hide

Control Bit [HDXO.0] [Edit]

☒ Hide when OFF ☐ Hide when ON ☐ Invisible

[确定] [取消] [帮助]
